

October 2017 Photo Album

We had lots to celebrate in October: the first graduate from our Isaiah house, the end of Micah's school year, fun art projects, God's beautiful creation...and more! Check out this photo album for a glimpse into October 2017 at the Micah Project!

CONGRATS SELVIN

¡Dios te bendiga en esta
nueva etapa!
SELVIN

This month, Selvin became the first young man to graduate from the Isaiah house! At the age of 19, Selvin was one of the first guys to leave the streets and join this home when it opened in 2015. After years on the streets, he truly had to fight as he looked forward to a different future than the one he seemed destined for. Now 22, Selvin is earning a living wage working full-time as a barber after completing a training program. He'll live in an apartment not far from Isaiah house and begin his life as an independent adult. We're so proud of his accomplishments!

Micah Science Fair

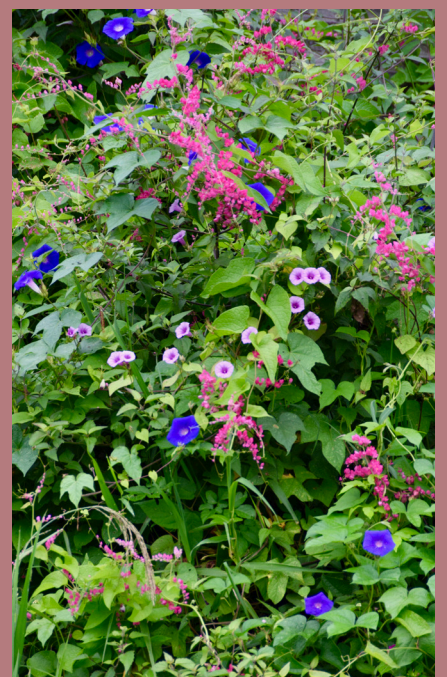

Micah Science Fair

We had so much fun at this year's science fair!! Each boy researched and performed his own experiment and then presented to a group of students from a nearby school as well as a group of judges. It was so much fun and a blessing to see our guys get excited about science! Events like this are huge steps toward confidence as the boys learn that they are capable of amazing things when they work hard and use their God-given talents.

The Beauty of God's Creation
