

Merry Christmas

from the Micah Project

2022

Your investment in the Micah Project in 2022 brought real hope to many lives here in Honduras—both practical hope for the here-and-now and the eternal hope that rests in our Father’s redeeming love. Here is a glimpse of lives transformed!

7

young men continued their education in local colleges and other academic programs

16

boys called the Micah House “home” (including four who moved in this year!)

6

teachers led our home-schooling program for five grades of students as well as vocational training in carpentry, welding, and auto mechanics.

3

young men left the streets behind and received job training (and now have full-time jobs!) through our Micah Works Foundations program.

7

Micah graduates participated in Youth with a Mission (YWAM) discipleship training programs and spent time living out the Great Commission in over eight countries, including England, Uruguay, Ecuador, Colombia, Cyprus, Turkey, Jordan, and Chile.

8

young men were apprentices in the Micah Cooks culinary program (as well as all of the Micah boys!)

5

young women chose to leave life on the streets to become cosmetologists and hair stylists through Micah Works Salon.

The Julio Cesar professional kitchen was inaugurated on March 17th at the Micah House.

Micah Co-Lab opened in June of 2022 with

7

full-time students learning AutoCAD and Autodesk Revit to prepare them for jobs as engineering drafters.

100s

of Micah family members and neighbors were welcomed onto the Micah property for meals, a wedding, a graduation, and holiday celebrations.

1,000s

of meals were shared on the streets of Tegucigalpa, accompanied by conversation, hugs, and the validation of each person's worth.

In the great ache that comes with great love, during 2022 there were funerals, hospital visits, and time spent in rehab centers and prisons. Yet while we aren't sure of the exact number, we also know that a lot of soccer balls were kicked, a lot of daily chores were done, a lot of braces were adjusted on teenage teeth, a lot of onions were chopped, a lot of birthdays were celebrated, and a lot of laughs were heard ringing through the corridors and grounds of the Micah House.

Much of the ministry that happens through the Micah Project is made up of moments of grace, growth, and love in action. These moments are immeasurable in the here-and-now but demonstrate God's faithfulness in powerful ways to this vulnerable, beloved community.

Thank you

for the living hope you bring to these lives.
