

October 2016 Photo Album

October was a busy month. With school wrapping up in November, we've been doing lots of neat activities, lots of learning, and having lots of fun. Each day has its challenges, but we are so thankful for this beautiful community! Check out the photos in this album to learn about what we've been up to. We hope you enjoy this little peek into life at the Micah Project.

Celebrating Francisco Morazan

October 3 is the birthday of Francisco Morazan, the military general and statesman who led Central America to independence from Spain. The boys shared some information and reenacted scenes from his life to commemorate the day.

In the skit, Jose Luis played Francisco Morazan. We all thought it funny that he looks just like him!

Villa Linda Miller

It's been such a blessing to watch our neighbors in the Villa Linda Miller community working to make their neighborhood a better place. This month, we've worked on improving the Villa Linda Miller water system and cleaned up around the community--and one of our graduates helped the community request to get its roads paved! What a BIG blessing.

Villa Linda Miller

We remain thankful for the Villa Linda Miller medical clinic, which serves many people in need. This month, our visitor Megan served as a volunteer at the clinic. We're also super excited about the roads getting paved!

An Opportunity to Serve

Thanks to a Honduran non-profit organization called CEPUDO, the Micah boys were able to pack food provisions and deliver them to sixty senior citizens in the Villa Linda Miller community. What a gift!

FUN in the SUN

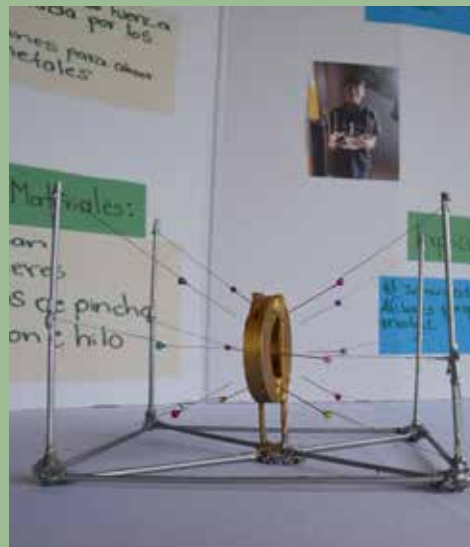

One weekend, the boys had a blast going to a water park and swimming, diving, sliding and splashing around! What fun!

2016 Science Fair

This year, each boy researched and performed his own experiment and then presented to a group of students and judges. What a blessing!

A Trip to the Pool

Our street outreach team is dedicated to continuously reaching out to young men and boys living on the streets. One day this month, we had a nice time with some of these guys at a local pool. Please keep them in your prayers. We hope they'll soon be able to leave life on the streets behind.

Life at Micah

This month we've seen our guys grow in so many ways. Jose Luis celebrated his sixteenth birthday, we had some wonderful times of worship and teaching together (even one of the Micah guys helped lead a study), and we continue to reach out to young men living on the streets. Please keep all of these guys in prayer.

We're thankful for volunteers who continually bring love to the streets of Teguz.

Micah Smiles
