

October Photo Album

The Micah boys, as well as several boys from Villa Linda Miller, continue to develop their skills in carpentry and welding a few days a week. Here the woodshop teachers help the 8th graders build bookshelves.

Science Fair

On October 20th we held our annual Science Fair at the Micah house. Each of the boys paired up with a staff member to help them with their project and we invited judges to help pick the winners. Great work guys!

Soccer Love

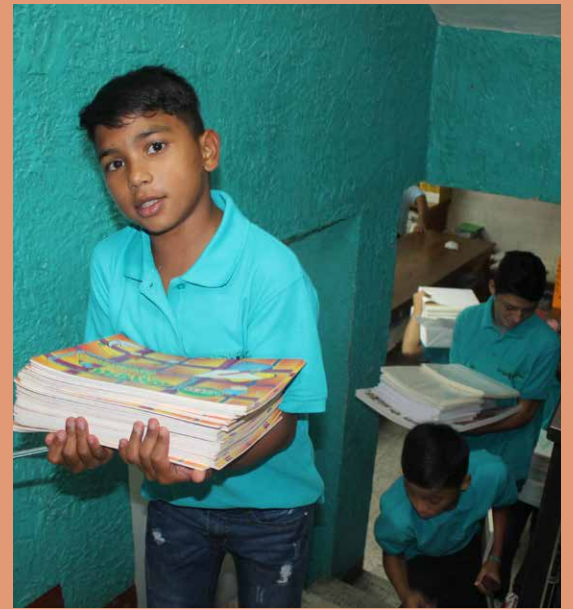

A Day at the Park

Last weekend we took the boys to a park where they could swim, go fishing and even ride a water buffalo! They had a great time!

Above: the boys received a donation of art supplies from a local art shop.
Below: Hector Nelly and Miguel participate in the Honduran National Anthem test, a requirement to pass 9th grade
